PROFESSIONAL SUMMARY

Results-driven software engineer with strong knowledge of **data structures, algorithms, and software development**. Experienced in developing scalable applications using **Java, SQL, and REST APIs**. Passionate about building efficient systems and solving complex technical problems in collaborative environments.

WORK EXPERIENCE

EDUNET FOUNDATION - IBM SKILLSBUILD

Virtual Internship

Artificial and Machine Learning Intern

18 June 2025 – 30 July 2025

- Currently undergoing a 6-week virtual internship on Artificial Intelligence with Edunet Foundation & IBM SkillsBuild.
- Built a console based salary prediction model using Python, Machine Learning algorithms, and Data Science techniques.

PROJECTS

1. Library & Inventory Management System | *Full-Stack Web Application*

- Built full-stack inventory system with React, Vite, Spring Boot, and MySQL
- Developed REST APIs with CRUD using Spring Data JPA and Hibernate
- Integrated React frontend with backend via REST API and JSON

2. Jobs Portal | *Full-Stack Web Application*

- Built responsive job portal application using React, Vite, Tailwind CSS, and React Router
- Integrated frontend with REST APIs and JSON Server for mock backend data handling and CRUD operations

3. AI Resume Analyser & Career Readiness Platform | *Full-Stack AI Application*

- Built an AI-powered career readiness platform that analyzes resumes against job descriptions to generate ATS scores, skill-gap analysis, personalized learning roadmaps, project recommendations, and interview readiness scores using Google Gemini API.
- Developed secure RESTful backend services with Spring Boot, Spring Security, JWT authentication, Spring Data JPA, and Hibernate, backed by MySQL.
- Implemented resume upload and PDF text extraction using Apache PDFBox, integrated external AI services with Spring RestClient, and managed secrets using environment variables.
- Built a responsive React frontend for resume upload, AI analysis visualization, and career insights, following a modular full-stack architecture.

SKILLS

Languages: Java, React, HTML, CSS, JavaScript, Springboot
Technical Skills: Data structures and Algorithms, Computer networks.
Tools: Git, Github, VS Code, Figma, Canva

EDUCATION

Sri Krishna College of Engineering and Technology Bachelors of Technology in Information Technology	Coimbatore, Tamil Nadu Cumulative GPA - 8.5
Yuvabharathi Public School HSE SSLC	Coimbatore, Tamil Nadu Percentage – 92.6% Percentage – 91.8%

CERTIFICATES

- Artificial Intelligence Fundamentals — IBM, Jul 2025
- Full Stack Development — NoviTech R&D Private Limited, August 2025
- Programming Using Java — Infosys Springboard, Apr 2025
- Networking Basics — Cisco Networking Academy, Jan 2025
- Practical HTML & CSS — Infosys Springboard, Nov 2024

HONOURS AND AWARDS

- World’s Youngest to complete Licentiate of Trinity College, London (undergrad in drums) at the age of 13.
- **Second Prize: Next Gen Innovators** – Sri Krishna College of Engineering and Technology; presented AGRI CONNECT, a startup concept empowering farmers and improving market access.
- **Finalist: Coding Contest** at Coimbatore Institute of Technology (2025); solved algorithmic problems on HackerRank using Java.
- **Finalist: Theervuthon 2.0** – National Level Ideathon (2025), PSG College of Arts and Science; proposed an agriculture-focused solution representing team Mind Mavericks.
